

9-0-6

FERTILEADER® is a foliar fertilizer formulated to support reproductive and late season development, enhance nutrient and water use, and combat abiotic stress.

GUARANTEED ANALYSIS

Total Nitrogen (N)	9%
9% Nitrate Nitrogen	
Soluble Potash (K ₂ O)	6%
Calcium (Ca)	8.5%
Boron (B)	0.1%

DERIVED FROM: Calcium nitrate trihydrate, Potassium hydroxide, Potassium nitrate, Disodium octaborate tetrahydrate.

ALSO CONTAINS BENEFICIAL SUBSTANCES:

4% Seaweed Extracts*

*Derived from Ascophyllum nodosum

enved norm Ascophyllain nodosain		
CROPS	APPLICATION STAGE	FOLIAR APPLICATION RATE 1-6 APPLICATIONS
Root & Tuber Vegetables including Potato, Carrot, Onion, Sugarbeet, etc.	During tuber bulking and root crop expansion, prior to row canopy closing	0.5-1.5 qts/ac
Fruits and Fruiting Vegetables including Tomatoes, Peppers, Eggplants, Cucumber, Zucchini, Pumpkins, Squashes, Melon, Strawberry, etc.	At bloom initiation, at fruit development through finishing/size	1-2 qts/ac
Field and Row Crops including Corn, Cotton, Soybean, Wheat, Rice, Peanut, Sorghum, Barley, Canola, Rice, and other Cereal Grains, etc.	At early-to-late reproductive stages starting at flowering through fruit/seed/grain finishing	0.5-1.5 qts/ac
Alfalfa, Clover, Other Grass Crops	Apply 7-14 days prior to harvest, 7-14 days after cutting, at dormancy break	0.5-2 qts/ac
Orchard and Vineyards including but not limited to: Apples, Pears, Peaches, Nectarine, Grapes, Tree Nut, Blueberry, Hops, Cranberry, Citrus	Late bloom to petal fall, at fruit sizing/finishing	1-4 qts/ac
Tobacco, Leafy Crops and Cole Crops (Cabbage, Brussels Sprouts, Broccoli)	During leaf expansion, initiated prior to head formation	1-2 qts/ac
		1-2 qts/ac

DIRECTIONS FOR USE: Do not spray during periods of frost. In hot conditions it is better to spray at the beginning or at the end of the day. Shake well before use. Apply only as directed. If foliar applying, dilute into at least 15 gallons/acre. On aerial applications, use minimum 5 gal/ac of water. More frequent applications may be needed to correct deficiencies. A 3-day minimum interval between applications is recommended.

These recommendations are guidelines only. Optimum rate of application will vary depending on environmental conditions, season timing, plant species, and current plant health status. For best results, follow soil and tissue test recommendations.

Always wear appropriate chemical mixing personal protective equipment (PPE), including eye/face and hand protection.

WARNING: This fertilizer carries added Boron and is intended for use only on directed crops. Overapplication or excessive use of Boron, or use on crops other than those listed, can result in Boron toxicity. This may cause foliar damage or serious crop injury. The proper use of soil test recommendations will minimize the risk of overapplication of Boron.

COMPATIBILITY, TANK MIXING AND STORAGE: Check mixture compatibility using a jar test prior to application. Fill mix tank with half of required water and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Manufacturer responsibility is limited to the guarantee of the product's composition as per label in certified

packaging. In all cases, test the compatibility prior to treatment. Store in a cool and dry place. Avoid storing in sunlight or high heat environments. Do not store under 32°F (0°C).

PLEASE READ CAREFULLY BEFORE USING
KEEP OUT OF REACH OF CHILDREN
SHAKE WELL BEFORE USE

DANGER

H319: Causes serious eye irritation. H335: May cause respiratory irritation. H360: May damage fertility or the unborn child (oral). P202: Do not handle until all safety precautions have been read and understood. P261: Avoid breathing vapors. P280: Wear eye protection, protective clothing, protective gloves. P304+P340: If inhaled: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308+P313: If exposed or concerned: Get medical advice/attention.
