

Effects of Fertiactyl GZ on Mature Christmas Trees

Crop:
Christmas Trees

Researcher:
Stacey Mullen
Timac Agro USA

Site Location:
Berks County, PA

OBJECTIVE

To test the proprietary liquid formulas on mature Christmas trees to improve growth and color. These trials were enacted to evaluate timing and product efficacy on a Christmas tree farm in PA.

RESULTS

Increased budding was found on trees that were treated with Fertiactyl GZ. There were no stress incidents to measure. Tissue tests were taken; however, the treatments were identical.

STUDY INFORMATION

Variety	Douglas Fir
Treatments	Fertiactyl GZ

APPLICATION

Product	Application Rate	Timing
Untreated		
Fertiactyl GZ	2 qt/ac (split)	Bud break and 2 weeks later
