

## OBJECTIVE

To assess the grain corn yield response of adding Excelis Maxx nitrogen stabilizer to 120 lbs N from UAN fertilizer knifed-in to the soil during planting.

### Site Location:

Fargo, ND

### Researcher:

North Dakota State University  
2016

## TIMAC AGRO PRODUCT

# EXCELIS MAXX

→ RHIZOVIT-LCN

## KEY FINDINGS

# +11 bu/ac

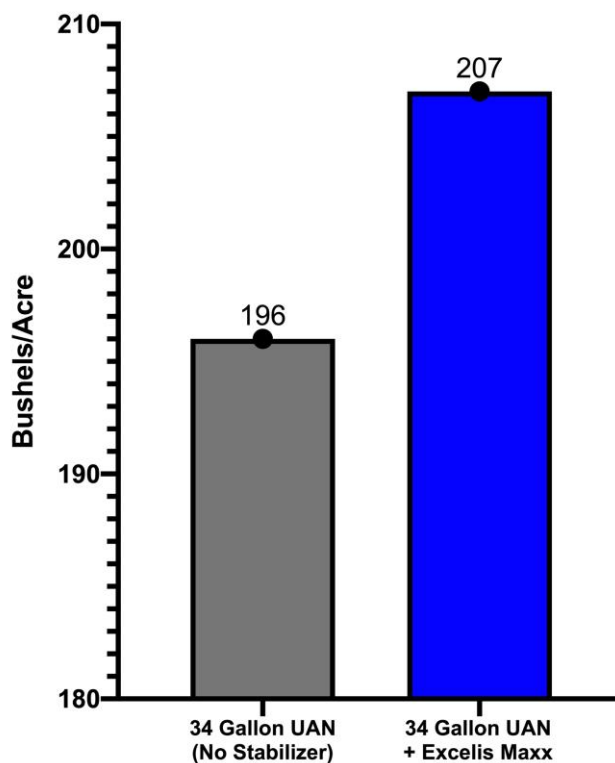

when UAN treated with Excelis Maxx

# ROI:

# \$32.45/ac

**Graph:** Excelis Maxx added. The Gross Revenue was calculated at \$3.75/bushel for corn with Excelis Maxx retail cost of \$240/gallon.

**Yield Response from Treating Knifed-In UAN with Excelis Maxx (Fargo, ND)**

## APPLICATION

Trial ID: DT-16-NM-COR-EM

Treatment	Application Rate
32% UAN (No Stabilizer)	34 gallons (120 lbs of N)
32% UAN treated w/ Excelis Maxx	34 gallons (120 lbs of N) + 25 oz/ton
